

Please leave XM radio alone. We pay to have this kind of radio and are very happy with it. Please reject the NAB's petition 04-160. XM radio is the only radio we listen to now and as cross country truck drivers, the instand traffic and weather is extremely important to us. We have been able to avoid many problems out here on the road by listening to XM and learning what is ahead of us on the road. Jeff and Juanita Moore
